

# THE TOWER OF LONDON

Did you know!  
That King Henry VIII  
actually had many  
different pieces of  
armor?

## Introduction

The White Tower full of armour and brilliant things for all ages. Terrific train rides in first class seats. Every thing there is for every body to be pleased by. From jules to executions.

## Ravens

Once we all had a snack outside we finally went inside and saw some ravens. One was called Poppy and Jubilee. Poppy was perching on a bannister at the top of the White Tower. Every body was taking pictures. The ravens feathers were cut every so often so they couldn't fly. Legend has it that if they leave England will crumble.

## The crowned jewels

The crowned jewels were amazing and we had a brilliant escalator ride which took us to some gold plates. But not any old plates gold and engraved plates with carvings of the last super. Some were big at least 60cm. There were also loads of crowns worn by well known royal subjects.

## Our workshop

When we came down from the tower were we ate lunch we went to a workshop. We made an escape plan there was some one else how escaped with charcoal paper and oranges. First they wrote letters to their friends with charcoal and paper. Next they used the oranges because it is invisible ink so the guards would not notice. And we got to see King Henry the 8th's room

## Our journey up!!

On the 18 of September we all woke up bright and early to get to Chichester train station. We all sat on the train for about an hour and a half. Once we got there we all went to the escalator then we went down to a giant train station.

## Summing up my brilliant day!

Over all I had a brilliant day with all my friends. I will always remember how much we enjoyed it. The journey back was really good and we got to sit in first class and made loom bands. I also played with some other games. Once I got home I plopped down on the sofa and had some amazing dinner. by Felicity K.A

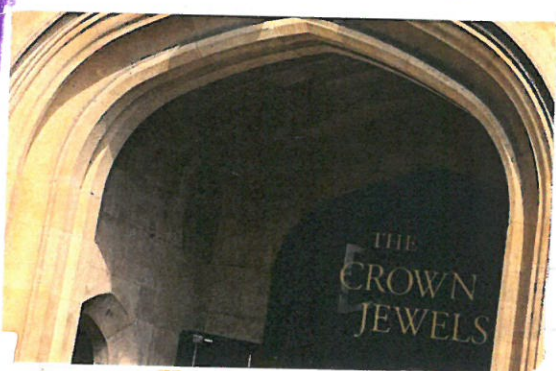

# BEST TRIP EVER

## Introduction

The crown Jewels was the most illustrious Jewels in the world because they had so many old Jewels. The white tower was fused together and kept prisoners in dungeons were rats poop everywhere what was gross. The Tower of London is really nice. Read on if you dare.

skating at the what was cool.

## RAVENS

After we went to the Ravens and they had named the Ravens called Jubilee and poppy. When we saw Ravens every body gasped gasped in delight when we saw the Ravens but not all the Ravens.

## SUMMING UP MY DAY

Overall, I had a fantastic at the Tower of London. What was amazing were the Ravens etc? and the crown Jewels. It was fantastic when we got there. I miss it already?

## CROWN JEWELS

First went to the crown Jewels we had to wait for a long time. Finally we got in and could not wait to get in. King Charles crown is in the big room full of Jewels what was sparkling. After we went to the white tower we saw a Raven what was

# TOWERS OF LONDON

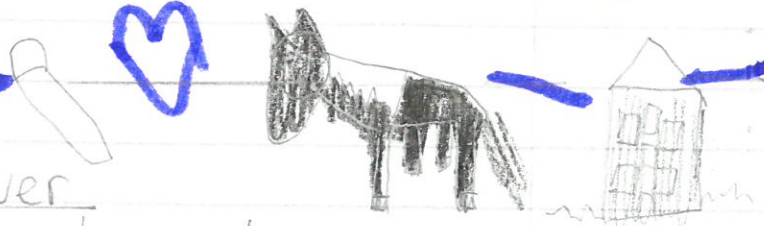

## Introduction

Armour, Weapons, Execution, Ravens, Trains, beefeaters, the Tower of London. Buckle in, because your about to hear gruesome and royal facts.

## The Ravens and crown Jewels

### CROWN JEWELS

As soon as we got there we saw the famous ravens who have sadly had their flying wings cut off. My personal favourite raven was Poppy because she was really funny. Not long after we went to England's historic crown jewels! We saw lots of diamond shiny crowns and gold. There was a very long queue but it was so worth it. We even got a picture with the Beefeaters!

## The White tower

After we ate our scrumious lunch, we wandered over to the white tower! The white tower is the main tower in the middle. It's very tall, and we walked through a pathway with fake horses and armour. Then we walked up bravely fall stairs and made our way to the top floor. The top floor is the games room. It's really fun because we could interact with things! Mercedes accidentally went out of bounds where she saw King Charles' death bed where he will die!

## Our Way up!

At 8:07 the Whole of Huskies and penguins met at Chichister train station. Then we wandered over to the platform. A little later we hopped on the train and departed. After a hour we changed trains at 3 bridges, when we got on that train we had no seats so we had to stand up the rest of the way to London!

## TOWER Execution and Jail

As you probably know the tower itself is very famous and well known for its jail and execution. First we went to see where people got executed! It was not at all what I was expecting... But it was still really cool. Back in the day crimes were really wierd. Such as you cant say "I think the king will die soon" or anything like that. However some stated as important people who did those 'minor' crimes would be held captive in the tower of London, but if you were 'normal' you would be behind bars in a normal jail. In the tower of London you would use your very own money to buy massages or items! There were only actually 25 people executed in the tower in 1000 years! The rest were sent off to be executed somewhere else!

Did you know?  
A old tower prisoner escaped the tower with orange peel, charcoal and paper!

To be a beefeater you have to had served in the army for 22 years!

Did you know  
one person  
escaped with  
orange peel?

# Best School Trip Ever!

## Introduction

Crowns and Jewels, First Class ticket, Beefeaters, Ravens, Execution, in all ages amazement our class trip to the Tower of London was amazing read on to hear about our Trip.

## How did we get there? Our Journey

On the 18<sup>th</sup> of September we woke up on a lovely day we caught a train to London Bridge. We walked to London Tower and when we got there we had a snack and then when we walked in and saw cute Sausage dogs then we kept on walking to the ravens and they were named and my favorite is called poppy. In the crown and jewels we saw lots of Shing crowns we saw queen victorias crown. In the white tower before we got in we saw one of the ravens and it was called poppy the white tower was gorgeous it was as white as moon light!

## Ravens

the ravens are cute. the ravens are as big as a Seagull they are as black as a midnight sky.

Did you know they cut off the feathers of the Ravens?

## Summing up my day

Over all I had a great time the train because we got to sit in first class and made team bands and ate a snack

## Workshop

There was a lady that led our workshop and planned a escape plan we used orange Juice.

Did you know Beefeater are not paid Bagg?

by Miraya

# Best School

# Trip Ever!

## Introduction

Executions, Crown jewels find out all about them and the ravens but also the thing only me and my friend saw. The train, the estates and blocked off corridors. The beegaters were really cool as well as seeing the soldiers stamping their foot and marching. Be prepared because this journey is going to be gross, funny and surprising.

## The Train

Mrs Conner's group got to sit in first class and what about my group? Well me, Bea, Elgie and Mercedes were sitting on the floor. The best bit was when me and Mercedes were sitting next to each other and Mercedes had brought a hedgehog. Sapsky and was picking all the spikes off and they were landing on this man's shoes. Then I sat next to Bea and we were trying to play hangman but I don't think Bea really knew how to play so I just said that I don't think we should play and I started to draw in my notebook.

## On The Way

After the trains we had about a half an hour walk and on the way we saw The Walky Talky, The Cheese Grater, The Oinian, The Garbain, The Shard, The River Thames, Tower Bridge and of course The Tower Of London

## Ravens

We went to see where the Ravens were and they were called Jobilly and Poppy and when we went to the White Tower there was a little surprise from Poppy. My friend Bea was in front of me and Harley said oh look theres a raven but there was a raven in the field and the field was on one side and the Tower was on the other so when me and Bea looked that way Poppy was sitting there and really pecked us in the face! and then I came up and I screamed and it made a weird sound when she came me.

Did you know?  
That Ravens have their flight wing trimmed so that they can't fly away.

## The Work Shop

After the ravens we went to a workshop and the person that was doing it was acting as a olden day lady called Lady Catherine grey.

## The Naughty Thing!

Me and my friend saw King Henry the eighth's throne and King Charles's Dead Bed and we went down a no entry path

Did you know?  
That you have to work as a guard before or been in the Army for 22 years to become a guard or a soldier or a beegater to work there.
